

November 21, 2023

To Whom It May Concern,

I am writing to recommend Lucas Conceição Morais.

Lucas worked in this capacity from September 2016 until November 2023. I worked very closely with Mr. Lucas in the years that he was employed as a Software Engineer on my team/company.

While working as a Software Engineer, Mr. Lucas was able to work in a set of fields, such as Data Engineering. In this position, Mr. Lucas was responsible for integrating with partners services to extract data ETL pipelines while working with Java, at first, and then with Python with Apache Beam.

Mr. Lucas was incredibly efficient in this role and consistently turned in high-quality projects on deadline. He has excellent communication and interpersonal skills and had a productive and friendly working relationship with my team. He always had an incredibly positive attitude and a can-do approach to any new projects or challenges.

If you require any additional information, please contact me.
